

BRANDON APE CLUB

Roadmap

10% - I tell my wife this was worth all the effort and work.

20% - Start collaborating with other artists and projects, which includes giveaways and collaborative project whitelist spots. Portions of sales will be used to buy into other projects for giveaways to holders.

30% - Funds added to the Community Wallet, which will be used for further promotion and giveaways.

40% - Liquidity pool is established and staking is developed, where staking your Brandon Ape will yield returns that can be converted to eth. 10% of all secondary sales will be added to community wallet and token liquidity pool with no end.

50% - \$50,000 donation to Operation Underground Railroad. Check them out here: <https://ourrescue.org/> This organization is amazing, their goal is to end child trafficking globally.

60% - Designs for Brandon Ape merchandise are started. When developed, giveaways back to holders will start.

70% - Brandon Ape Club DAO is established. Where ideas and ways to move forward are discussed and voted on.

90% - Launch of a VIP lounge, where holders can chat and share ideas. This lounge will be exclusive to holders of Brandon Apes.

100% - Develop the future of Brandon Ape Club. A goal of this project is to combat censorship, so what better than a DOA to decide on the best way to do that.
